**AFFIDAVIT FOR SEARCH WARRANT**

William R. Mackenzie, being duly sworn under oath, states as follows:

1. I am an investigative or law enforcement officer of the United States within the meaning of Title 18, United States Code, Section 2510(7), and am empowered by law to conduct investigations of, and to make arrests for, offenses enumerated in Title 18, United States Code, Section 2516.

2. I have been deputized as a Task Force Officer with the Drug Enforcement Administration (DEA) and I am presently assigned to the Tulsa, Oklahoma office. I am also a police officer for the Tulsa Police Department and have been so for over eighteen years. I have a Bachelor's Degree in Criminal Justice from East Central University. Since becoming a Narcotics Detective with the Tulsa Police Department, I have participated in wire and physical surveillance, surveillance of undercover transactions, the introduction of undercover agents, the execution of search warrants, debriefings of informants and reviews of taped conversations and drug records. Through my training, education and experience, I have become familiar with the manner in which illegal drugs are transported, stored, and distributed and the methods of payment for such drugs. I have been the primary investigator in more than five complex conspiracy cases prosecuted within the federal justice system.

3. I have trained other narcotic detectives within the Tulsa Police Department's Special Investigations Division. I have completed the Oklahoma State Bureau of Investigations Clandestine Laboratory Basic Safety Certification and Clandestine Laboratory Site Safety Officer courses presented by Network Environmental Systems. I

have completed the Drug Enforcement Administration Basic Narcotics Investigator School. I have completed an Advanced Undercover Narcotics School. I have completed a Southwest Border Intelligence school and an Outlaw Motorcycle Gang school presented by the Association of Oklahoma Narcotic Enforcers. I have completed a Complex Conspiracies school presented by the Midwest Counterdrug Training Center. I have completed a Communication Exploitation Training presented by the Drug Enforcement Administration Special Operations Division. I have received formal training in narcotics investigations from the Tulsa Police Academy, as well as informal training received from more experienced officers.

4. I have participated in over 500 drug related criminal investigations. I have authored federal Title III affidavits and both state and federal search warrants. I have participated in several Title III investigations, purchased narcotics in an undercover capacity on numerous occasions, and executed controlled deliveries of narcotics. I have interviewed hundreds of defendants involved in the use, manufacture, transportation, and illegal sale of controlled dangerous substances. During the course of these interviews, I have inquired and learned how individuals involved in drug distribution schemes and networks use and disperse the illegal proceeds generated from the illegal sale of controlled dangerous substances, including but not limited to chemicals commonly utilized in the illegal manufacture of methamphetamine.

5. Over the past several months the Special Investigations Division of the Tulsa Police Department ("SID"), the Drug Enforcement Administration of the United States Department of Justice ("DEA"), and the Internal Revenue Service, Criminal Investigations,

of the United States Treasury Department (“IRS-CI”) have been conducting an investigation involving David M. Leslie for suspected violations of Oklahoma and United States law in the Northern District of Oklahoma and elsewhere involving possessing with intent to distribute marijuana.

6. On July 30, 2018, at approximately 5:35 am, DEA Task Force Officer E. Olson was patrolling I-80 Eastbound when he stopped a silver 2018 Nissan Armada pulling a U-Haul trailer for a traffic violation. During the traffic stop, DEA Task Force Officer E. Olson made contact with the driver of the vehicle and identified him as David M. Leslie. During the traffic stop, DEA Task Force Officer E. Olson utilized his drug certified k-9 “Fletch” and received a positive alert to the presence of controlled substances on the U-Haul trailer David M. Leslie was pulling.

7. A search of the U-Haul trailer from which David M. Leslie was pulling resulted in the seizure of more than 200 pounds of marijuana contained in duffle bags and plastic totes. Also in Leslie’s possession was a HP computer, a black Motorola cell phone, a black Samsung Galaxy J7 cell phone, a black Samsung Galaxy S8+ cell phone and a black Samsung Galaxy Note 8 cell phone. The HP computer and cell phones are currently being held in the Tulsa Police Department property room.

8. The Affiant anticipates the items in Attachment A will assist in the furtherance of their investigation into the aforementioned Drug Trafficking Organization involving David Leslie and others not yet identified. The Affiant anticipates utilizing the information obtained from the cellular telephones to identify other co-conspirators known

and unknown and to corroborate investigative information obtained throughout this investigation.

9. The Affiant knows that cellular telephones are often equipped with digital cameras and those phones possess the capability to transmit and/or store electronic images. The Affiant knows that in many cases, drug traffickers may maintain photographs of illegal drugs, large quantities of U.S. Currency, or other people involved in their narcotics trafficking business. These photos are sometimes stored in their cellular phones and often are transmitted or sent from one electronic media device to another. The Affiant also knows that cellular phones may also contain notes regarding drug trafficking that are recorded by the subject who possesses the electronics. Furthermore, the affiant knows that text messages, emails are often used by two or more persons to communicate information regarding narcotics trafficking, and other illegal activities, between phones.

10. Based on the foregoing, the affiant has probable cause to believe that contained within the long term memory of the telephones described in Attachment "A" contain data regarding the drug trafficking activities of David Leslie. Specifically, the affiant has probable cause to believe the names and phone numbers of drug suppliers and customers, electronic notes pertaining to prices and amounts of drugs sold, addresses of individuals involved in the distribution network and photographs of the narcotics will be found in the cellular telephones. These items are more fully set forth in Attachment "B".
